FIRST-YEAR EXPERIENCE ABROAD
A HIGH-IMPACT LEARNING EXPERIENCE

THIS IS A SPRING-SEMESTER PROGRAM. IF YOU CHOOSE THIS OPTION, YOU’LL ATTEND WEEKLY CLASSES IN THE FIRST HALF OF THE SPRING SEMESTER AND SPEND SPRING BREAK ABROAD.

In class, you’ll explore the academic part of the topic you choose, learn about another culture and prepare for your travel experience. Then you, your professor and two student mentors will spend the week of spring break out of the country. When you return, you’ll “unpack” the trip - reflecting on what you’ve experienced, what you learned and what it all means to you.

SPRING 2014 OPTIONS

• UK SOCCER EXPERIENCE
  Examine the role of soccer in contemporary England, where you’ll visit London, Nottingham and Manchester. Experience soccer in person and take book-based discussions global with this real-world learning opportunity.

• GENETICS AND ETHICS IN BERLIN
  Study biomedical ethics in Berlin, a fantastic opportunity for anyone interested in the health professions. You will explore the coming of age of genetics, gene sequencing and genetic testing – all through the lens of history.

• PARIS UP CLOSE
  Visit the major sites and museums, walk the varied historic quartiers and experience the Paris of today. The city will serve as your visual and literary text for discussion and reflection.
