This course will introduce social and behavioral aspects of public health with a focus on health inequities and social determinants of health in Belize. Belize will serve as our case study of community health issues, differences in health outcomes based on social factors, and efforts to improve public health from community, non-profit and government sources.

March 4 - March 11, 2023

Students enroll in the following course:
FYET Exploring Public Health (1 credit)

Program Fee: $3,820*
*subject to change (includes airfare)

Application Deadline Oct. 15

This course will introduce social and behavioral aspects of public health with a focus on health inequities and social determinants of health in Belize. Belize will serve as our case study of community health issues, differences in health outcomes based on social factors, and efforts to improve public health from community, non-profit and government sources.
